II. 請依據文意，將適當的英文字代號填入空格中 (2 分 x 20 = 40)

Part One: a. prepare b. unusual c. decent d. raise

He's a modern hero, an ordinary man in a role that he's not well __9__ for. He has to work hard and learn many things fast – things like cleaning house, caring for a child, and cooking a __10__ meal. Who is this __11__ man? He is a single father, a parent who is __12__ children alone. Is he so uncommon? Not really. In the United States, there are over 893,000 single fathers bringing up over one million children.

Part Two: a. myths b. belong c. used to d. openly

There are many __13__ about single parents, both men and women. When a family split up, many people feel the children __14__ with the mother. People think that mothers make better single parents because they show their feeling more __15__. Men, some say, like to keep their feelings to themselves. Mothers, it is said, are more __16__ household work and taking care of children, so they can do a better job.

Part Three: a. consider b. yet c. sympathy d. run

Single mothers usually get less __17__ than single fathers do. Single mothers work, __18__ a house, cook and take care of the children, __19__ very few people think they are extraordinary. On the other hand, when a single father does all those things, many people __20__ him a superman.

Part Four: a. cases b. finding c. interview d. compare

Today more and more single fathers are discovering what single mothers already know: single parenting is difficult.

In order to __21__ parenting skills, a psychologist in Illinois __22__ a group of single fathers and single mothers. She asked them questions about their physical, psychological, and social responsibilities toward their children. Her __23__: there is no major difference between men and women as single parents. Single fathers and single mothers give children about the same number of hugs and kisses, serve equally well-planned meals, and similarly encourage their children by paying for such things as dancing or music lessons. In many __24__, however, single fathers have more money. This often allows them to provide better for their children's needs.

Part Five: a. grow b. guidance c. pioneer d. realize

The single father is a __25__, and his numbers are __26__: the number in the United States has more than doubled. Some studies show that many single fathers are very successful. We are beginning to __27__ that men, can cook meals, take the kids to school, and give them the love and __28__ that the children need.
